Permissions:

Photography: taking and recording images of your child - both individually and with other children - is key to being able to show and share their progress with you. We use a combination of Tapestry (personal to you) and Facebook/TCG website (open for all) for sharing information, pictures and video of each child's progress and activities. We do not include *any* personal information of any child in an open forum. When providing you with images of your child, there may be other children in the images - and vice versa. This is hugely important for sharing the many interactions your child has at TCG.

Please circle & sign:
